

Coronavirus Club Risk Assessment

Venue Name: Holy Trinity Primary School

Date of assessment: 13/07/20

Lead teacher: David Parker

Safeguarding officer: Mrs Cat Mcpherson

Essentials

Has the latest Government Guidance on distancing and re-opening been considered? **YES**

Has the lead instructor completed BMABA Covid-Aware Qualification and has access to a full ESCP Policy? **YES**

Venues & Local Authorities

This risk assessment is specifically in relation to the risk of Coronavirus. It does not show due diligence or a standard risk assessment for the broader venue and practice of martial arts.

For a full picture on risk assessment, please request from the BMABA club or instructor:

- Covid-Aware Instructor Certification
- ESCP Policy Document
- Covid Risk Assessment

RISK/HAZARD

MITIGATION AND CONTROL

RISK/HAZARD	MITIGATION AND CONTROL
<p style="text-align: center;">PRE ENTRY AND ENTRY</p> <p>Parents and students not observing social distancing when arriving at the venue</p> <p>Breaches to social distancing entering and</p>	<p>Pre-communication of policy on distancing as well as a pre-planned arrival / exit strategy. Signage to be present outside of venue and within the venue to advise parents and students</p> <p>Instructor or associated staff to control entry</p>

<p>leaving the venue</p> <p>Bags and personal possessions cross-contaminating others' possessions</p>	<p>and exit from the training venue to ensure orderly queue and controlled movement of people</p> <p>Designated 'safe place' for bags and other personal equipment which will be appropriately marked off and cleaned prior to use. Personal belongings to be kept distanced from other person's items</p>
<p>CLEANLINESS AND HYGENE</p>	
<p>Risk of infection from surfaces</p> <p>Risk of infection from flooring or mats</p> <p>Risk of infection from equipment and PPE</p> <p>Risk of infected student or parent arriving at venue for class (or drop-off/pickup)</p> <p>Risk of infection from transferal to mats / training area</p>	<p>Instructor to complete cleansing of venue hard surfaces (door handles, handrails etc) prior to arrival of students and support staff.</p> <p>All mats to be disinfected with anti-viral solution prior to use, and permitted to fully dry for standard health and safety considerations. Where a hard floor surface is present, instructor to discuss with venue who's responsible for disinfecting</p> <p>Use of PPE and other equipment to be kept to absolute minimum. Any equipment provided must be kept in isolation for 72 hours before next use and must be disinfected with anti-viral solution before and after each use. No body-worn PPE to be provided by the club (i.e. mouth guards or groin guards) in line with standard best practice. Students advised to use own equipment where-ever possible.</p> <p>Club to make assessment on use of temperature checking all entrants to venue. If not deemed to be necessary, parents and all students to receive clear communication prior to training that they should not attend if presenting any Covid-19 symptoms. The same high standards of cleanliness and distancing must be adhered to by any 'passing' visitors.</p> <p>Students to be asked to remain stationary off mats (or training area) in line with ESCP policy and to make way in controlled way to training space under instruction of the lead instructor.</p>

	One way system to be used for any shared spaces.
<p style="text-align: center;">CLASS DELIVERY</p> <p>Risk of students breaching social distancing during classes and training</p> <p>Risk of training producing contact between Students</p> <p>Risk of instructor breaching social distancing measures in the event of an intervention (on the grounds of safety)</p> <p>Risk of infection from water-breaks and pauses to training</p>	<p>Students to be reminded prior and throughout class of current social distancing measures. Instructor to make up to date assessment of best practice surrounding the current safe distance prior to each lesson commencing. Clear floor markings - where space is restricted - to be used to control flow of movement and to clearly demonstrate safe spacing wherever possible. Parents must be able to confirm they have instructed their child(ren) appropriately on following guidance to the best of their ability.</p> <p>All techniques and drills to be pre-decided by instructor to ensure syllabus is appropriate to space</p> <p>Instructor to ensure facemask and disposable gloves are available for any required intervention. Prior communication via ESCP policy essential to ensure students understand possibility of physical intervention for preservation of safety.</p> <p>Water breaks and other appropriate pauses to be controlled and pre-planned, with students instructed to ensure water bottles and towels etc. are available within their safe space.</p>
<p style="text-align: center;">CLASS CONCLUSION AND EXIT</p> <p>Risk of infected equipment and training aids</p> <p>Risk of infected flooring and fixtures</p> <p>Risk of crowding on exiting training space and leaving the venue</p> <p>Risk of parents breaching distancing during</p>	<p>All equipment to be left 'on the spot' when lesson concludes and must be fully cleansed by the instructor, whom must wear PPE</p> <p>Prior discussion with venue on who is responsible for cleansing hard flooring. Any mats to be disinfected fully by lead instructor or associated staff member using anti-viral solution when all equipment is cleared.</p> <p>Follow entry and exit risk assessment, from section 1</p> <p>Parents to receive full and prior policy via ESCP</p>

pickup	document on protocol for collection. Floor markings and signage must be visible prior to entry to the venue.
